Sayyid Abdul Aziz Haidar

Software Engineer | Back-End Developer | System Design
Enthusiast | Tech Builder
Pancoran Mas, West Java, Indonesia

Summary

I'm a Software Engineer specializing in back-end development and system architecture, with 4+ years of hands-on experience building scalable, reliable, and maintainable systems.

I've worked with fast-growing startups and international teams — shipping production-ready code, designing APIs, optimizing performance, and ensuring system reliability under pressure. Whether it's designing database schemas, building RESTful/GraphQL APIs, or ensuring service resilience, I care deeply about the craft and the impact of great engineering.

Tech I often work with:

Java Spring, Node.JS, Laravel, PostgreSQL, Redis, Docker, AWS, CI/CD, and more.

What sets me apart:

- Fast learner with a strong foundation in software design principles
- Passionate about tech, science, and continuous improvement
- Proven ability to lead, mentor, and collaborate across diverse teams
- Comfortable wearing multiple hats — from coding to communication

Outside of work, I'm actively involved in leadership and tech communities, currently serving as a student government president while pursuing a degree in Data Science. I believe in building systems and people.

Let's connect if you're into engineering excellence, cross-functional collaboration, or just want to talk about cool backend architectures.

Experience

Student Government Cakrawala University
President
November 2024 - Present (9 months)
Central Jakarta, Jakarta, Indonesia

Kilap Global Group
Data Analyst Intern
January 2025 - March 2025 (3 months)

PT E-Tirta Medical Centre
Software Engineer
April 2024 - July 2024 (4 months)
Jakarta, Indonesia

NF Juara
2 years 9 months
Senior Backend Developer
March 2023 - March 2024 (1 year 1 month)
Indonesia

Backend Developer
July 2021 - February 2023 (1 year 8 months)
Indonesia

QarirLabs
Backend Mentor & Instructor
January 2022 - June 2022 (6 months)
West Java, Indonesia

Badr Interactive
Software Engineer
January 2021 - March 2022 (1 year 3 months)

Skydu Academy
Backend Developer
August 2019 - January 2021 (1 year 6 months)
Indonesia

Education

Cakrawala University

Bachelor of Science - BS, Data Science
